| CT-G<br>29 | Carved stone ball                        |                 | Carved<br>stone ball |  |  | MHG10887 | 6561  | 1 | This carved stone ball is on display in Dunrobin Museum without any provenance. Although the record MHG10887 states that it may be the carved stone ball found at Golspie Towers Farm, the ball on display is much damaged, and does not resemble the sketch of the Golspie Towers carved stone ball published in Davidson 1940. As a result, either the description or illustration in Davidson 1940 is wrong, or the object on display is not from Golspie Towers Farm. |
