House 1 (not indicated on O/S map)

House 2 (viewed looking west)

House 3 (viewed looking north)

Houses 4, 5 & 6 should now lie in a small deciduous wood, but upon investigation no trace could be found. Houses 1, 2 & 3 are all of the same size & layout, one large long room with a byre on the end.

First known as Achbane in 1548, later as Auchvanie in 1633, Achavanie suffered the same fate as many small settlements when it was “cleared” to make way for sheep.
