Hello Marlyn,

the emails for both are simply firstname.secondname@highland.gov.uk.

The Farr Stone is in Council ownership, lying in the graveyard, so falls under the responsibility of TEC Services, which is why I am keen that they are involved from the outset.

As the stone is scheduled obviously HS are the prime archaeological advisers. It is unlikely therefore, that the Archaeology Unit will require to be involved in any significant way as I would see our main role being to advise TEC Services in our capacity as the Council's archaeological advisers.

Best regards
Dorothy

Hi Dorothy,

Have now heard from Anne Coombs as below. Do you have email addresses for Brian Donnet and Campbell Stewart?

Many thanks,

Marlyn

Dear Marlyn,

If you let me know when you want to meet I will be delighted to visit Bettyhill. I have forwarded your

email to Sabina Strachan who will be your first contact with regard to conservation of the stone. The stone pavement is probably the concern of Cole Henley, Noel's assistant and I will speak to him about it.

Yours
Anne
