<p>"NG 517 513. Holm: described as a 'village' c1695 (1) and shown as a township by Johnson in 1824 (2) but totally deserted by 1875. (3)" (OSPI:AC:19.12.1960)</p> <p>"Holm consists of two distinct depopulated townships. The earlier run-rig settlement, centred at NG 518 507, is situated on a shelf of a steep cliff at a height of about 152m OD. It comprises about 12 houses with a number of yards and outbuildings, the whole clearly contemporary with the surrounding lazy-bed system." "See also HNG 55 SW 005)." (OSPI:AC:29.4.1961)</p>
