**Smr ref:** NG82NE003  
**Your Ref:** SL/97/142  
**Please ask for:** Allison Fox, extn. 3631

---

Planning Application at: Eilean Donon Castle, Dornie

Thank you for your enquiry. This application lies within an area of potential archaeological interest, although the nature and extent is not clear, due to previous ground disturbance.

For this reason I would recommend the following condition:

*No development shall take place until the applicant has implemented arrangements for the safeguarding where practicable, and recording where necessary, of archaeological features and structures affected by this proposal. Such arrangements must be agreed with the Highland Archaeologist to ensure their adequacy and approved by the Planning Authority.*

Please also advise the applicant to discuss matters with the Highland Archaeologist as soon as possible. Early consultation can save time and money for all concerned.
