Centred at NH 508 623 on a SE-facing slope is a settlement of four oval stone-walled huts ('A'-'D').

Hut 'A' measures c. 13.5m N-S by c. 10.5m between the centres of a wall spread to c. 2.5m all round, in which occasional outer facing stones on edge can be seen. The simple entrance is in the S. A later track cuts through the W arc of the hut from N to S.

'B' is c. 13.0m NW-SE by c. 11.0m between the centres of a wall of indeterminate thickness. Several outer facing stones occur intermittently in the SW arc. The S side is obscured by peat and the entrance is not evident.

'C' and 'D' are about 1.0m apart. 'C' measures c. 12.0m NNW-SSE by c. 9.5m between the centres of a wall spread to c. 2.5m all round. The outer end of the 'simple' entrance in the SSE is flanked on its W side by an upright block.

'D' measures c. 17.5m NW-SE by c. 15.5m between the centres of a wall spread to c. 3.5m all round. The 'simple' entrance is in the SE.

Only a few contemporary stone clearance heaps can be seen, mainly in the vicinity of hut 'A'.
