52 TEXT

"NH 6627 7429, NH 6628 7437, Hut Circles."(1) "At NH 6627 7429 and NH 6628 7437 on an afforested S-facing slope are two circular stone-walled huts (A & B respectively). 'A' is mutilated and measures about 9.0m in diameter between the centres of a wall spread to c2.0m all round. The indistinct entrance is in the SE. 'B', bisected by a later hill dyke, is about 12.5m in diameter between the centres of a wall spread to c3.0m. The SE arc is mutilated and no entrance is apparent. No contemporary cultivation plots can be seen."(OSFI:NKB:29.10.1970) "Surveyed at 1/2500."(OSFI:ISS:23.8.1972)
