52 TEXT
 "NH 683 737. In 1976, a boulder bearing cup-and-ring markings was recorded here, in Newmore Wood. (As the Soc. of Ants. field surveyors give no further information about this stone, presumably it was not located by them, having become overgrown)."(1)(2) "An obviously displaced stone lies at NH 6832 7366 in a coniferous plantation. It measures 0.8m by 0.6m by 0.3m thick, and bears on its upper surface a cup mark 0.08m in diameter encircled by the remains of a ring 0.2m in diameter."(OSFI:JB:23.2.1981)
