52 TEXT  
 "NH 715 761. About 30m N of the chambered cairn noted on NH 77 NW 007 there is a circular enclosure which measures about 20m in diameter over a low bank 3m in thickness. Immediately inside the bank there are traces of what may be a shallow ditch. The enclosure at NH 71537621 is as described above. It is ill-defined, but the inner ditch appears to be 3.0m wide and 0.1m deep. A 3.0m wide gap in the WSW may be an entrance or possibly later mutilation. The enclosure superficially resembles some hengiform sites, but the remains are too poorly defined for certain classification."(1) (OSFI:JB:23.2.1981) "NH 7153 7621, Oval enclosure."(2)
