ROYAL MUSEUM OF SCOTLAND

Queen Street
Edinburgh EH2 1JD

Tel. 031 225 7534

Part 1: RECEIPT FOR OBJECTS LEFT AT THE MUSEUM

No:

Name and address of owner

Mr/Ms/Miss/Ms

B.S. Crowley

Address

Highland R.C.

0463 / 711176

Tel No:

Old School

Clackmannanshire

Inverness

Brief description of object(s):

1 medicinal antennae j-g form
documents

Find spot/Source:

Purpose of enquiry: Identification Donation Purchase Loan

Please note that:

- 1) The enquirer will be informed when the object(s) is/are ready for collecting, unless a specific request is made for its/their return by post.
- 2) This form should be produced when objects are collected.
- 3) ~~While every care will be taken to ensure the safe custody of the objects deposited at the Royal Museum of Scotland objects can only be received on condition that neither the Museum nor its officers shall be liable for any loss or damage to the objects which might occur while they are in the Museum.~~
- 4) The Museum reserves the right to dispose of objects if they are not collected within 6 months of the owner being notified in writing that they are available for collection.
- 5) Neither the Museum nor its officers can accept any responsibility for any opinion that may be expressed on items submitted for examination.

Received by: *[Signature]*

Date: 20/8/92

Part 2: RECEIPT FOR RETURN OF OBJECTS

Declaration:

I acknowledge the return of the item/items described above, in satisfactory condition.

DAK? TIMBERS. - DRESSED, UNDRESSED & BURNT (DESTRUCTION?)
+ BRAT TIMBERS (CONTEMPORARY).

OBJECTIVES: - ESTABLISH IF ^{OR HOW MUCH} CRANNING.
FIND CAUSEWAY, IF EXISTED.

-: LOCATE / RECOVER OBJECTS. ARCHAEOLOGICALLY.

Dept of Libraries and Leisure Services
Capital expenditure Sub-Committee: 26.2.91

LOCHINDORB CASTLE, NAIRN DISTRICT.

1.1. This report is in response to a wish on the part of Councillor Graham to further work already carried out on the consolidation and repair of this important monument, undertaken in 1984-5 under the auspices of the MSC Community Programme. That so far completed comprises repair to the outer face of the east curtain wall, but is only a small percentage of work originally identified as necessary or desirable. The bulk of the funding came from MSC.

1.2. The Council has set aside £10,000 towards the project, and Lord Cawdor has expressed a keen desire to contribute. However, these contributions in total are wholly inadequate for the task identified.

1.3. Public sector funding sources are unlikely to radically alter this position, and it would be unrealistic to proceed without additional Private Sector funding. How this is raised, and other associated problems, are outlined below.

2.1. Clarification of Council policy is required on the desirability of projects of this kind, as Lochindorb is by no means the only worthy cause. However, as 'Heritage Monuments' are a prime attraction to the Tourism of the area, they should be seen as potential major resources.

2.2. Clarification is also required as to the Council Department best suited to deal with such projects. At present, small-scale works of this kind may be undertaken by several departments. It would be desirable to have funding and resources rationalised and centralised within a single department.

2.3. Should Council agree to such a policy, particularly where eventual ownership is deemed advantageous, then management works of this kind might be undertaken in house over a wide range of monuments of all periods - many of which would require very limited funding to maintain and present to the public.

2.4. A degree of funding, of which an element might be reclaimable through entrance charges, publications, etc., would be required from Council sources, while other funds might be sought elsewhere. The seeking of sponsorship requires time and particular skill, however, and might warrant a specialist member of staff being appointed to raise money from various sources. This could prove extremely beneficial, although some kind of Trust might be required to hold and distribute funds.

2.5. As additional funding is essential to further work at Lochindorb on any reasonable scale, it might be worth using a portion of the Council's £10,000 allocation towards a fund-raising effort for this particular site. Such an exercise would also provide a yardstick against which other, similar, projects might be measured.

2.6. The Archaeologist will undertake to seek advice from Historic Buildings and Monuments Scotland as a first stage.

Total weight of Sample = 102.9 g

wt of Sample after removal of lime = 78.0 g

Loss in wt = 24.9 g

% loss = 24.2%

∴ % Aggregate (dry) = 75.8

Assume density of Aggregate (dry) = 1675 kg/m³

Assume Hydrated Lime = 575 kg/m³

Mix = 1 part lime to 1 part aggregate by volume.

+ $\frac{1}{16}$ - $\frac{1}{8}$ PORTLAND CEMENT.

POINTING WITHOUT CEMENT. -

Hope This of Some use
